Monterey, CA 93940

Re: Contract Drafting Services – Carmel River Basin Boundary

Dear Mr. Bell,

Central Coast Surveyors (CCS) is pleased to propose drafting services for the above referenced project. We have obtained 1"=100' scale mapping for the City of Carmel-by-the-Sea showing elevation contours on 2-foot intervals overlying an orthophoto base. This resource will be very useful in determining precise boundaries of the river basin within the city limits. USGS quadrangles will be used for the balance of the boundary. CCS will make use of the District's existing quadrangle mosaic in transferring the boundary to a reproducible copy of the 15 sheet set of maps showing the District boundary, the water resource system, and the Ordinance 96 regulatory area boundary. A new linetype will be mutually agreed upon and utilized to delineate the river basin boundary.

The fee for these services will be \$2450 and includes an allowance for reproduction of the existing 15-sheet set.

Should you have any question, comments, or wish to issue a notice to proceed with this work, please contact me directly.

Sincerely,

A handwritten signature in black ink, appearing to read "Dave Edson", with a horizontal line extending to the right from the end of the signature.

Dave Edson
