1995	3280	2800	122
1996	5065	4429	282
1997	5444	4651	401
1998	4216	3563	305

Notes:

1. The MPWMD Reporting Year (RY) runs from July 1 to June 30.
2. Golf course production data for RY 1986 to 1992 were compiled from monthly data provided by Bob Meyer of MCWRA on 5/2/95. RY 1986, 1990 and 1992 data are for partial years, representing only 6 months of data available in each of these reporting years.
3. Golf course production data for RY 1993 to 1998 were taken from the MPWMD's Well Reporting Program.
4. Cal-Am production data were taken from the MPWMD's Well Reporting Program.
5. Total production data were taken from the District's Well Reporting Program, except that the golf course data prior to RY 1993 have been added to the totals that were originally reported by the MPWMD, because these data have become available since that time.
6. In addition, the total production originally reported by the MPWMD for RY 1989 was further adjusted to account for revisions made on 4/17/90.
