Subject: 570 Munras Avenue – Foothill Development Water Meter Variance Request

Dear Ms. Pintar: *Steph*

As we have discussed, the City of Monterey strongly supports the proposed Variance from the District's water meter requirements. Individual water meters would result in a loss of on-site parking and opportunities for landscape areas. Individual meters would also detract from the aesthetic qualities of the project and likely substantially increase the project cost. We support the developer's proposal to install in-line water meters for each user.

Please recommend that your Board approve the Variance as proposed.

As always, thank you for your attention to this matter. Please contact me at 646-3437 if you have any questions or require additional information.

Sincerely yours,

Chip
