Subject: Approving Resolution for Water Precommitment to 459 Alvarado Street
for Affordable Housing from the City's Affordable Housing Allocation

Dear Ms. Beck:

At its June 3, 2008 meeting, the City Council of Monterey adopted Resolution
No. 08-088 C.S.

Further communication will be forthcoming but in the meantime, should you have any
questions regarding this matter, please call Bill Reichmuth, Deputy City Manager Plans
and Public Works, at (831) 646-3921.

Sincerely,

Catherine A. Raynor, CMC
Senior Assistant City Clerk

JUN - 9 2008

RESOLUTION NO. 08-088 C.S.

MPWMD

**A RESOLUTION OF THE COUNCIL OF THE CITY OF MONTEREY FOR A
WATER PRECOMMITMENT TO 459 ALVARADO STREET FOR
AFFORDABLE HOUSING FROM THE
CITY'S AFFORDABLE HOUSING ALLOCATION**

WHEREAS, the City of Monterey received the last water allocation from the Monterey Peninsula Water Management District in 1993; and,

WHEREAS, the City of Monterey had exhausted its allocation by providing water for projects or precommitting water for potential projects; and,

WHEREAS, the City Council reestablished the Affordable Housing Allocation on November 6, 2008 through adoption of Resolution 07-207 in the amount of two (2) acre-feet of water; and,

WHEREAS, the City Council has the authority to allocate or precommit water to meet current needs, provide long-term planning for the City's future, and fulfill its value drivers and strategic initiatives; and,

WHEREAS, a precommitment of water does not in any way constitute approval of the project or project design.

NOW, THEREFORE, BE IT RESOLVED THAT THE COUNCIL OF THE CITY OF MONTEREY:

1. Precommits 1.60 acre-feet of water for the affordable housing component of a project located at 459 Alvarado Street for a period of 18 months beginning on the date of City Council approval of this Resolution provided the applicant completes the following targets:
 - a. The applicant shall file a complete application within 12 months of City Council approval including, but not limited to, requests for variances and/or a Specific Plan.

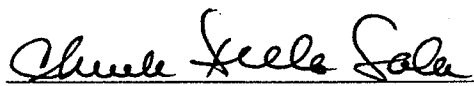

- b. The applicant shall resolve all affordable housing issues with the City's Housing and Property Manager within 12 months and complete all required discretionary review within 12 months of City Council approval.
- c. The applicant shall obtain a building permit within 18 months of City Council approval.

Approval of this water precommitment will not preclude the applicant from returning to the City Council for a water precommitment extension if required. Criteria for granting an extension to the water precommitment may include: an applicants' demonstrated pursuit of obtaining discretionary approvals and/or prompt responses to requests for additional information.

PASSED AND ADOPTED BY THE COUNCIL OF THE CITY OF MONTEREY
 this 3rd day of June, 2008, by the following votes:

AYES:	5	COUNCILMEMBERS:	Della Sala, Downey, Haferman, Selfridge Sollecito
NOES:	0	COUNCILMEMBERS:	NONE
ABSENT:	0	COUNCILMEMBERS:	NONE

APPROVED:

 Mayor of Said City

ATTEST:

 City Clerk thereof

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both primary and secondary data collection techniques. The analysis focuses on identifying trends and patterns over time, which is crucial for making informed decisions.

The third part of the report details the results of the study. It shows that there has been a significant increase in sales volume over the period analyzed. This growth is attributed to several factors, including improved marketing strategies and a strong focus on customer service.

Finally, the document concludes with a series of recommendations for future actions. It suggests that the company should continue to invest in research and development to stay ahead of the competition. Additionally, maintaining the current level of customer service is essential for long-term success.

Subject: Request for Estimate of Potential Water Use Credit Transfer within the City of Seaside

Dear Ms. Pintar:

This letter is in response to your correspondence dated May 5, 2008 regarding the potential for a water use credit transfer within the City of Seaside.

Staff has estimated the potential potable water credit transfer within the MPWMD jurisdiction to be approximately 70 AFY. This figure represents potential for redevelopment of properties within the City's West Broadway and Fremont commercial zones.

The question regarding the City's ability to contribute toward the cost of additional environmental studies will need to be deferred until an actual proposal has been developed since this would be a policy decision that would be considered by the City Council.

Additionally, an estimate has been performed related to the potential sub-potable water transfer related to the conversion of landscape areas to sub-potable use. The estimated sub-potable water credit has been determined to be 270 AFY.

Please feel free to contact me at 899-6825 with any questions or concerns.

Sincerely,

 Diana Ingersoll
 Deputy City Manager – Resource Management Services

Subject: Ordinance 134

I am appalled that the District is even considering punishing the innocent by putting this ordinance in effect against the residences of Hidden Hills. This ordinance is contradictory to all agreements and promises that Cal-Am and the District have made to the people in this area over the years. I know for a fact that the folks here take water use very seriously and in fact are not the "over drafters" of the aquifer. Cal-Am has been illegally moving water from our aquifer to other areas; something that no other water system is allowed to do. But instead of finding ways to get Cal-Am in line or fulfilling the District's charter to find additional water sources the District proposes this ordinance.

The 92 lot owners of the Los Laureles Homeowners Association is asking the Board to postpone any decision on this ordinance and give the people in this area an opportunity to come up with solutions other than rewarding Cal-Am with delivering less and charging more.

Sincerely,

Glen Stransky, President

Los Laureles Homeowners Assoc.

Subject: MPWMD Cal-Am request Hearing

With respect to the Cal-Am request before the MPWMD to be heard on Monday 19th May 2008
I wish to have the following remarks recorded.

"At the time when the Hidden-Hills water company was sold to Cal-Am the then board of directors of the Hidden-Hills water company took great pains to negotiate the conditions of sale with Cal-Am, that are in effect now and were accepted by Cal-Am.

It is a breach of contract of Cal-Am to now try to impose changes of these conditions.

No other outside agency can have the right to sanction and enforce such breach of a legal contract agreement unilaterally.

If it can be shown that the cost of production of water, which is taken from those wells sold to Cal-Am , has increased significantly , then the holders of that contract of sale should accept an appropriate increase in their water cost. In no way should the seller be held responsible for Cal-Am's gross mismanagement of the Peninsula water resources in the last 30 years.

Respectfully

**Karlheinz Woehler
Hidden Hills**

Subject: PLEASE postpone the final reading on Ord. 134

I'm writing as President of Hidden Hills Homeowners Association. We feel we've been "blind-sided" regarding many of the water-rationing issues--as just one example, we had no knowledge of, nor input to Judge Randall's 2003 Adjudication.

Along with other affected homeowners associations, we are rushing to get up to speed on the issues. We truly want our voices to be heard on such important issues.

Ordinance 134 is too important to proceed without our input. In fairness, we would very much appreciate a postponement in the final reading. I know several of us plan to be at Monday's meeting and we'll make our case then.

Thank you,

R. Stephen Bloch

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This not only helps in tracking expenses but also ensures compliance with tax regulations.

In the second section, the author outlines the various methods used to collect and analyze data. These include direct observation, interviews, and the use of specialized software tools. Each method has its own strengths and limitations, and the choice of which to use depends on the specific requirements of the study.

The third section provides a detailed overview of the data analysis process. It starts with the initial cleaning of the data to remove any errors or missing values. This is followed by a series of statistical tests to identify patterns and correlations within the data. The final step is the interpretation of these results in the context of the research objectives.

Finally, the document concludes with a summary of the key findings and a list of recommendations for future research. It suggests that further studies should focus on refining the data collection methods and exploring new analytical techniques to improve the accuracy and reliability of the results.

Dear Mr. Fuerst:

MONTEREY PENINSULA WATER MANAGEMENT DISTRICT PERMITS 7130B AND 20808
(APPLICATIONS 11674B AND 27614), CARMEL RIVER AND CARMEL RIVER
SUBTERRANEAN STREAM IN MONTEREY COUNTY

On September 5, 2007, the Monterey Peninsula Water Management District (District) responded to the Division of Water Rights' August 6, 2007 letter regarding the following water right matters.

Petition for Change – 7,909 acre-feet per annum (afa)

On April 19, 2002, the District petitioned to change Permits 7130B and 20808 to allow up to 7,909 afa to be diverted from the Carmel River. The 2002 petition proposes that when specified instream flows established by the National Marine Fisheries Service are exceeded during the period November 1 to June 30, direct diversions from the Carmel River would be allowed.

Petition for Change – Phase 1 Aquifer Storage and Recovery Project (ASR)

There is no need to address this issue, because the State Water Resources Control Board has approved the ASR project pursuant to Permit 20808.

Petitions for Extension of Time

The District provided its showing of cause for the time extension as follows:

1. The Phase 1 ASR project relies upon and is proceeded upon use of Permits 7130B and 20808.
2. The District and CAW have negotiated an agreement that contemplates additional phases of ASR. Each additional ASR phase can be expected to rely upon Permits 7130B and 20808.
3. CAW is proposing the Coastal Water Project as a means to reduce Carmel River diversions as directed by Order 95-10. An expanded ASR project is included as a major feature of the Coastal Water Project. Rights for the ASR portion of the Coastal Water Project that exceed the Phase 1 ASR Project may well rely on Permits 7130B and 20808.

California Environmental Protection Agency

Darby Fuerst

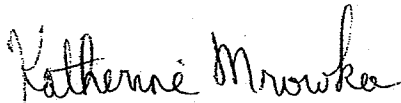

2

4. The District's pending 2002 petition relies upon the permits to enable the community to use a less costly water supply and improve system reliability in the event of interruption of the supplemental supply.
5. Unless and until all Carmel River diversions are legalized in accord with Order 95-10, the permits may be needed as a basis for other water supply projects.

The District did not provide any information on when it will have completed the California Environmental Quality Act (CEQA) document for the change and time extension petitions. A workplan for completion of the CEQA document and resolution of the protests is requested. The workplan should include the dates for circulation of the draft CEQA document, the expected date of circulation of the final CEQA document, and the date when certification of the CEQA document is expected to occur. The workplan should document the status of each protest and identify when the District has met with or corresponded with the protestants. If the District does not demonstrate that it is diligently pursuing the petitions, Division staff may recommend cancellation of the petitions for failure to comply with CEQA.

If you have any questions on this matter, I can be contacted at (916) 341-5363.

Sincerely,

Katherine Mrowka, Chief
Watershed Unit 3
