

Table XV-1
Regulatory Water Production Targets
for California American Water Systems from Sources
Within the Monterey Peninsula Water Resource System

(All Values in Acre-Feet)

Month	Monthly Target	Year-to-Date at Month-End Target
October	1,374	1,374
November	1,081	2,455
December	993	3,448
January	961	4,409
February	878	5,287
March	1,012	6,299
April	1,123	7,422
May	1,422	8,844
June	1,518	10,362
July	1,636	11,998
August	1,630	13,628
September	1,486	15,114
TOTAL	15,114	---

Note:

Monthly and year-to-date at month-end production targets are based on the annual production limit specified for the California American Water (CAW) systems from Carmel River sources in State Water Resources Control Board Order No. WR 95-10 (11,285 acre-feet) for WY 2010 and an adjusted annual production limit specified for the CAW systems from sources in the Coastal Subareas (3,583 acre-feet) and the Laguna Seca Subarea (246 acre-feet) of the Seaside Groundwater Basin for WY 2010 in the Seaside Basin adjudication decision. The Coastal Subareas total includes 496 acre-feet of carryover production in Water Year 2010. This main system total (14,868 acre-feet) was distributed monthly based on CAW's reported monthly average production for its main system during the 1998 through 2007 period and the satellite systems total (246 acre-feet) was distributed monthly based on CAW's reported monthly average production for its satellite systems during the 2000 through 2007 period.

**Table XV-2
Regulatory Water Production Targets
for California American Water Satellite Systems from Sources
Within the Monterey Peninsula Water Resource System**

(All Values in Acre-Feet)

Month	Monthly Target	Year-to-Date at Month-End Target
October	24	24
November	16	40
December	13	53
January	11	64
February	10	74
March	14	88
April	17	105
May	24	129
June	27	156
July	30	186
August	30	216
September	30	246
TOTAL	246	---

Note:

Monthly and year-to-date at month-end production targets are based on the adjusted annual production limit specified for the California American Water (CAW) satellite systems from sources in the Laguna Seca Subarea (246 acre-feet) of the Seaside Groundwater Basin in the Seaside Basin adjudication decision. This value (246 acre-feet) was distributed monthly based on CAW's reported monthly average production for its satellite systems during the 2000 through 2007 period.
