

EXHIBIT 14-C

**Summary of Approximate Yields
MPWMD Water Supply Projects in Progress
As Presented at
August 25, 2011 Water Supply Alternatives Workshop
(Revised September 16, 2011)**

Project Description	Yield
Water Project 1 – Phase 1 Aquifer Storage and Recovery (<i>see note A</i>)	920 AF
Water Project 2 – Phase 2 Aquifer Storage and Recovery	1,000 AF
Water Project 3 – Local Desalination Plant	2,000 AF
Water Project 4 – Support Groundwater Replenishment	2,700 AF
Water Project 5 – Expand Los Padres Reservoir Capacity (<i>see note B</i>)	851 AF
Total	7,471 AF
Total, Excluding Installed Phase 1 ASR	6,551 AF

Notes:

(A) Water Project 1 – Phase 1 ASR already on-line

(B) Water Project 5 – Expand Los Padres Reservoir Capacity requires 1,255 AF of sediment removal to restore 1948 water right, but yields only 851 of water allocable to unlawful diversions.
