**Subject:** Re: MPWMD Board Meeting--April 15, 2013

Dave, a couple of quick thoughts occurred to me as I scanned the agenda, specifically the Mission Statement.

- 1) In the Mission and Vision sections, the words "safe and reliable" might augment the mission in a way that is different from simply "sustainable".
- 2) In the annual goal statement, it would be appropriate to have a goal of ensuring that the WMD conservation program is focused on steps that will truly minimize the wasting of water use while preventing an unreasonable disruption to the customers.

Roger
