Subject: Ryan Ranch - Bishop Interconnection

Dear Ms. Stern:

California American Water is submitting an application to amend our water distribution system permit. The project consists of a permanent interconnection with California American Water's Bishop Service area, consisting of approximately 300 linear feet of water main and a water meter for measurement. Constructing this project will result in an improved reliable supply capability within Ryan Ranch and an increase in total and firm source capacity.

This project was approved in the rate case and agreed upon by California American Water and the Monterey Peninsula Water Management District.

Sincerely,

Lesley A. Silva  
Project Manager  
California American Water-Coastal Division
