

APPENDIX H

EMPLOYMENT GROWTH POTENTIAL

The following pages summarize employment growth potential within the Monterey Peninsula Water Management District. The first five pages show this potential according to each of the five distribution alternatives being analyzed in this EIR. The final six pages do the same for each of the water supply option/baseline production level combinations under which new Cal-Am water will be available. The hotel employment estimates assume that each new hotel room translates into 0.8 employees.

DISTRIBUTION ALTERNATIVE II

	Employment	Hotel	Golf Course	Total Employees
